

## The Flow of Our Thinking

Describe how your design has changed.

**At first, we designed:**

Hunger

because we see it every day  
(your thinking)

**Then, it became:**

Rice to hungry people

because people need food  
(your thinking)

## The Flow of Our Thinking

Describe how your design has changed.

**If we had enough time to build a full version:**

*(describe additional features that would make your app even better)*

A gallery  
for all the pictures

because people would like  
(your thinking)

**Finally, for our MVP, we built:**

color to get cans  
and to what  
country

because people should have fun while  
giving back  
(your thinking)

## The Flow of Our Thinking

Describe how your design has changed.

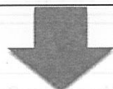

### At first, we designed:

my first ideas were that there would be guides to community service like gardening, you would find places in the app without webviewer and it would have a more complicated design

because \_\_\_\_\_

(your thinking)

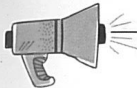

### Then, it became:

Simple and without webviewer, just buttons on multiple screens

because \_\_\_\_\_

(your thinking)

## The Flow of Our Thinking

Describe how your design has changed.

### If we had enough time to build a full version:

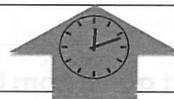

(describe additional features that would make your app even better)

you would be able to donate through the app

because \_\_\_\_\_

(your thinking)

### Finally, for our MVP, we built:

Simple design with webviewer added

because \_\_\_\_\_

(your thinking)
